DETAILED ACTION

Claim Suggestions

Applicant uses the limitation “and/or” several times throughout the claims, making it uncertain whether Applicant intends the language to mean “and” or “or”. The Examiner recommends that Applicant change this to simply read “or”, since for the purposes of patentability “or” fully incorporates one, the other, or both.

Specification

The disclosure is objected to because of the following informalities: The specification fails to provide a brief description of Figures 9 and 10.

Appropriate correction is required.

Conclusion

This application is in condition for allowance except for the following formal matters:

The issues related to claims and specification, set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm’r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
